

Benefits

- **Affordable**

Our solution provides corporate level software at an affordable price.

- **Available**

With our cloud based POS, you will have access to your entire database from any web-enabled device.

- **Save Time**

Having all of your customer and sales data records in one database, you will be able to quickly find the information you are searching for.

- **Save Money**

Combining multiple systems into a single, integrated solution, fySales reduces dual keying of data, and allows you to make better business decisions based on real-time data.

- **Retain Customers**

With our solution, you will gain the ability to send targeted advertising campaigns to existing customers by Store/Location, customer birthday, and even by previous product purchases.

- **Credit Card Processing**

With our integrated credit card processing, there is no need to continually purchase or lease new CC hardware to keep up with technology.
